

Dear Animal Lovers,

as most of you have noticed our crowd funding was not successful. We received about 30% of the needed amount. Due to the rules of the page, we will not receive any money at all. Donators wont be charged by Paypal, since the minimum amount (Tipping Point) was not reached.

We thank all of you for sharing, supporting and especially donating. We are proud that so many people liked the project and trusted us. Please, donate the money that you planned to donate for the portal to some organization or sponsor some animal in need (food, operation or neutering). Start in your street. Every street needs one volunteer to solve the street animals problem.

THE FUTURE

Exactly 1 Year ago the idea for Kirikkuyruk (Bustedtails) was born. We tried to set up the portal with volunteers, finding sponsors and now this crowd funding...so far it did not work. BUT we will continue to try and since we went a bit "viral" lately, new opportunities opened up. Whenever our job situation and our 3 handicapped cats at home allow us to invest more time, we will work on the future of the Portal. We truly believe that our project can be a great tool to help all of those goodhearted people out there on the streets or in the forests helping the suffering animals.

In case you know any company that would like to sponsor the portal (Company pays programmer directly, not via us – we don't want to handle money) Please, let us know.

Thank you for all your support and kind words.

Only together we can help our little friends the most effective way.

As we germans say: "Alles wird Gut" (all will turn out good)

See you soon,

C&C
